

Frontend Developer with **4+ years of experience** building scalable, high-performance, data-driven applications. Proficient in **Vue 3, React, and TypeScript**, focusing on reusable components and frontend architecture. Experienced in complex UI development, including data visualization and interactive systems. Contributed to code quality, architectural decisions, and UI consistency. Strong team collaboration and continuous learning mindset.

✂ Tech stack

- **Frontend:** Vue 3, React, TypeScript, JavaScript, HTML, CSS/SCSS, Tailwind CSS
- **State Management:** Pinia, Vuex, Zustand
- **Build Tools:** Vite, Webpack
- **Version Control & CI/CD:** GitHub, GitLab, Docker
- **Other:** REST API (Axios), OpenLayers, Vitest, ESLint, Leaflet.js, Canvas API, Figma
- **Languages:** Russian (Native), English (Upper-intermediate)

Work experience

Frontend Developer | OM Solutions | 2022 - present

- **Contributed to the development of a complex data-driven application** for analytics and geospatial visualization, including advanced mapping and tabular interfaces. Designed and implemented a reusable notification system and centralized validation layer, improving UI consistency and reducing code duplication. Developed scalable UI components and maintained Storybook-based design system. Wrote unit tests and contributed to FSD-based architecture decisions and code reviews.
Tech: Vue 3 (Composition API), TypeScript, Pinia, Vue Router, Vite, Axios, Tailwind CSS, OpenLayers, Vitest, ESLint, Docker, GitLab
- **Built a production workflow management application** with image processing and ML-based calculations. Developed reusable UI components and complex interfaces, collaborating with backend engineers to deliver end-to-end features. Contributed to user documentation and installation guides.
Tech: Vue 3, Vue Router, REST API, Canvas API, SCSS, GitLab, Docker, Figma
- **Contributed to a live broadcasting platform** with interactive mapping features using Leaflet.js. Implemented UI features and integrated real-time data flows with backend services.
Tech: Vue 3, Vuex, REST API, Leaflet.js, GitLab, Docker, Figma

Education

Master's degree | MPEI | 2013 - 2019
